„The Forest is Playing Music”

Artistic Days in the Mátra

29 June- 7 July 2019

Day by day in our accelerated world we tend to feel the destruction of spirit and nature. More and more people try to put an end to these worrying social and natural processes. Artists fight against spiritual impoverishment, woodsmen and environmentalists for the preservation of nature. Now artists and woodsmen have united with those fearing Hungary's cultural life and the condition of woods. The main aim is to establish such an active, free time activity which closely connects music and nature with tourists, children and the inhabitants of the area. Let us breathe in the fresh air of the woods, enjoy and take delight in its beauties and let our spirit soar free. All who take part in our series of programmes get closer to arts and nature as well. Music helps with spreading consciousness of our environment while the woods give an opportunity for people to understand how important arts are.

Lajos Szabó
Forestry engineer
